O CÉU

CALÇADA

CALÇADA PORTUGUESA is the initial designation of traditional stone mosaics from Portugal. Skilfully arranged patterns create the illusion of floating waves and 3-dimensional perspectives. The collection of five side tables reflects this idea by using mirrored glass with printed stone patterns. Supported by a filigree framework, the tabletop will be available in coloured wood veneers also.

Coming soon.

O CÉU

INTARSIA BOXES

The wooden boxes are small treasure chests to collect delight objects. Refined with a selection of skillfully applied intarsia works by Portuguese craftsmen. The Boxes also fit precisely into the compartment grid of the COLLAGE sideboards.

GALO DE BARCELOS The „Galo“ is one of the most famous emblems of Portugal. It's based on a tale from the 17th century, that tells the story of a dead rooster's miraculous intervention in proving the innocence of a man, who had been falsely accused and sentenced to death.

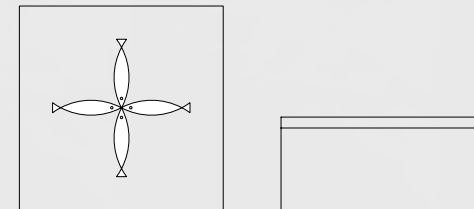

ANDORINHAS The swallow is one of the most common birds in Portugal, heralding good weather when arriving in spring. In 1891, Rafael Bordalo Pinheiro moulded some clay swallows with a hand painted finish. Soon it was a quite popular symbol, covering dishes, tiles and interiors. This decorative object became an absolute icon of Portugal.

SARDINHAS There are many fairytales about Sardines in Portuguese history. They symbolise good luck in life, love and fortune. Beside that, it's one of the most famous national dishes.
